

ASSEMBLY INSTRUCTIONS

Wall-Shelf Assembly DVDC500

Tools and Materials that may be required:

- Adjustable wrench ½ or socket set
- 3/8 Inch drill bit/electric drill [concrete drill bit may be necessary for floor anchoring]
- Other tools/materials may also be necessary depending upon actual installation
- Installation Hardware Kit included – locate white hardware kit box

Installation Procedure:

Confirm installation site with onsite management prior to installation.

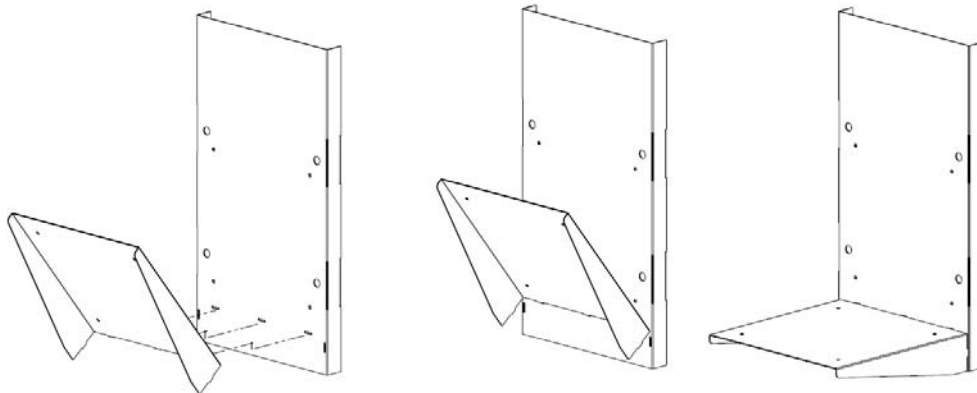

1. Use wall-shelf support to locate and center mark holes for drilling.
2. Position support against the wall where unit is to be installed. Locate anchoring holes and center mark holes for drilling.

WARNING: DO NOT DRILL HOLES DIRECTLY ABOVE OR BELOW WALL OUTLETS

3. Remove shelf support and set aside to gain access to drill marks and drill holes. Note: 4 lag screws are also provided for possible solid wall or wall stud anchoring configurations [see Figure 2]

Wall Anchoring – re-position shelf support near install site wall and insert 4 toggle bolts through hole and spacers provided [see Figure 1 & 2]

4. Align unit against wall anchoring holes. Insert toggle bolt wing nut through wall anchoring holes and thumb tighten.
5. Align and insert wall-shelf into wall support as shown below [see Figure 1]
